International Trade Fair
for logistics, transportation and handling
in the petroleum industry

27 – 29 Sept 2012

Messe Kassel / Germany

expo
PetroTrans

Press information   Kassel / Germany, 17 September 2012

5th expo PetroTrans with numerous highlights

The Trade Fair for Logistics, Transportation and Handling in the Petroleum Industry impresses by innovative accents and the improved supporting program. The industry meets from 27 to 29 September in Kassel / Germany.

Always one step ahead with expo PetroTrans

Visitors learn for free about current news, various issues and practice-oriented relevant topics in the expo PetroTrans seminar program. Practitioners and known experts will provide several highlights.

Jewels from filling station history

The expo PetroTrans includes an exclusive exhibition of historical items and filling station accessories in Halls 3+4 – a touch of nostalgia!
The exhibits such as petrol pumps, oil can cabinets, transport crates, 2-stroke mixing systems etc. have been collected from various European countries and include restored and non-restored genuine items from the start of the 20th century and up to the sixties. They are certain to awaken memories of a bygone age! No plastic, no colourful neon signs and no digital pricing systems – just enamel and lots of detail!

Big Fair Party premier

The Fair Party on Thursday, 27th September, is the perfect opportunity to round off the first day of the fair in a pleasant atmosphere and to have chats apart from business contacts. After an eventful first day, guests can enjoy free BBQ special-

ties at the buffet. All drinks are free of charge the whole evening as well! A variety of musical highlights makes it a perfect event.

Looking for winners

expo PetroTrans dedicates an own award to the special topic "product innovations for the industry". Outstanding new products and services on display at the exhibition run for the Innovation Award 2012. Three of them will be chosen by competent visitors as well as the jury and awarded with the coveted trophy.

Going to the limits without risk – experience road safety live!

On the expo PetroTrans test track the Instruktoren-Börse team offers safety and competence on more than 4 wheels. That means road safety training from pros for pros. The Instruktoren-Börse is one of the biggest truck training providers in Germany and presents itself with "action and know how".

For the action part, look no further than the driving dynamics demonstrations with the latest drive assist systems on all three days of the fair. Those of you wanting to know more will also have the chance to take a ride in one of the two demo vehicles yourself and thus get to grips with swerving and braking on the 100 m long test track.

Staff from Instruktoren-Börse will also be passing on their know-how and additional information to interested visitors in halls 1+2, stand E11, where additional vehicles will also be on show.
